Projects

- **Med4all**
It is a secure and user-friendly digital healthcare solution, enabling patients to manage their prescriptions and purchase medications online. This innovative platform streamlines the pharmacy experience. This is a group project in which my role is to handle Style (CSS) and Database (My SQL using PHP).
- **Password Generator**
This JavaScript-based password generator creates strong, unique passwords for enhanced online security. Utilizing JavaScript's cryptographic functions and random number generation, the tool produces complex passwords
